

Complete a Petition to Eliminate Photo Radar in BC

It is imperative that the provincial government be made aware of the level of opposition to their policies on photo radar speed enforcement and the setting of speed limits. Our goal is to collect 250,000 signatures (10% of the motoring population in BC). SENSE is collecting all the petitions and will officially present them to the Minister of Transportation and Highways.

We can also use your help in organized petition drives. Join ours (we currently have groups in Greater Vancouver, Victoria, and the Central Okanagan/Kelowna), or start your own. Contact us for more information.

How to complete the petition:

1. Print out several copies of the petition. The petition is page two of this document. Please don't make any changes since maximum effectiveness requires that all the petitions sent to the provincial government be the same.
2. Ask friends, neighbors, family and anyone else you can think of to sign the petition (you will find this the easy part since most people are very eager to sign and voice their opinion).
3. Return the signed petitions directly to SENSE at the address below (this address is also printed on the petitions). Signed petitions cannot be faxed in, they must be original signatures.

Return signed petitions to SENSE:

PHOTO RADAR CAMERAS

To the Honourable Minister of Transportation and Highways of the Province of British Columbia:

This petition of British Columbia Voters and other concerned citizens is to request the cancellation of the use of photo radar cameras on British Columbia Roadways. We request that speed limits be adjusted to reflect the speeds that the majority of drivers want to travel, thereby reducing speed variation and the necessity for unreasonable speeding fines. Your petitioners respectfully request that you immediately take such action as deemed appropriate.
